

*“We strive to provide a unique looking product that is also highly functional for our customers,” said art director, Jan Hurt. “We wanted something unusual, but customizable for our packaging.”*

### **Coordinating Vacation Bible School to be Organized and Colorful**

When deciding to create a Coordinator’s Guide for vacation bible school, Growing with the Saints, Inc. knew they needed a product that was organized and concise, as well as colorful and interesting.

“We strive to provide a unique looking product that is also highly functional for our customers,” said art director, Jan Hurt. “We wanted something unusual, but customizable for our packaging.”

Growing with the Saints chose UniKeep™ binders for their product creation and has thus far created three separate projects with UniKeep™ as their creative curriculum solutions increase in popularity. “We used the 3.0 Extreme Binder to organize our program materials, and we customize each binder by using an overlay printed with the particular year’s logo and by changing the colors of each binder,” said Hurt.

The Coordinator’s Guide includes: planning suggestions; registration and evaluation forms; bible verses; activities; music; crafts; a field day section; and a closing ceremony guide, to name a few. All of these pieces require organization and accessibility. “Our customers love the look and versatility of our packaging,” said Hurt. “Coordinators are able to use the front binder (with rings) to store pages between tabbed folder pockets, and the second binder (without rings) to store storybooks and craft templates. The binder makes it easy for the VBS

## Customer Solution

Program Coordinator to keep her materials organized, while also providing ease of use when distributing materials.”

Growing with the Saints, Inc. was founded in 2001, in response to parents and religious educators who were searching for a truly Catholic vacation bible school program. They believed children needed an opportunity to grow in their faith and learn about the Sacred Traditions of the church. The Saints responded to this void in the Catholic market by writing and publishing a new, and completely Catholic, program.
